  Maya 3D
  Autocad 3D
- Knowledge of Game engines:
  Unreal Engine   (Blueprint)
  Unity   (C#)

PROFILE

I was born in Vercelli on 24 December 1999. I live in Copenhagen to complete my Master's in Games. I studied in Casale Monferrato until high school graduation and then continued my studies in Milan, where I graduated in 2021 in New Technologies for Applied Arts at the Nuova Accademia di Belle Arti (NABA). Currently, I am working on my dissertation on AI in video games as a tool for developers.

EXPERIENCE

DADIU's Project

IT University of Copenhagen | Copenhagen
August 2024 - December 2024

The DADIU project saw me involved, as a game designer/level designer, in the realisation of a series of video games, within a team of 13-14 people. This experience helped me to deal with different professionals within a team and to find a common language in facing challenges.

Warehouse Operator

Amazon Fullfilment Center | Vercelli
May 2023 - July 2023

Inside the warehouse I was in charge of storing the packages received in the racks using EKS (Amazon forklifts). Sometimes I was sent to packing.

Internship

Sergio Ganora Studio Tecnarte | Casale Monferrato (AL)
Jan 2017 - Feb 2017
Architecture and design studio

MARCO CIBIN CIBINSTUDIO7 | Casale Monferrato (AL)
May 2016 - Jun 2016
Architecture and design studio

EDUCATION

Bachelor's Degree in New Technologies for the Applied Arts

NABA Nuova Accademia di Belle Arti (Milano)
October 2018 – September 2021

Master's Degree in Games (Design track)

IT University of Copenhagen
September 2023- On going
